

San Francisco Design Boutiques

The highest concentration of design showrooms can be found in the San Francisco Design District (epicenter at Henry Adams and Division Streets). There is an excellent guide to this district online [here](#).

In this resource guide, my goal is to highlight some of the wonderful shops and boutiques that are located outside of the main design district. Many are clustered together in places like Hayes Valley and Sacramento Street, while others are off the beaten path entirely. Have fun exploring!
